As much as this could surprise you, the basis for getting things done, the first step that can make a difference between a doer and a don t-er is the TO-DO LIST, or, more precisely, the way one creates such a list. That is because a to-do list is not just a piece of paper on which you jot down some things you need to do - it's an extremely useful instrument, a lot more complex than that. It is an indispensable tool for your success. This book will teach you how to create this sort of tool: general principles, the steps you need to take in making a list, the things you need to avoid, specific tips and techniques to be more efficient and more.
