SAP HANA Starter

By Mark Walker

Packt Publishing. Paperback. Book Condition: New. Paperback. 66 pages. Dimensions: 9.1in. x 7.3in. x 0.2in.Everything you need to know to be able to build your first SAP HANA standalone application! Overview Understand key principles behind SAP HANA Discover the main features of the SAP HANA Studio for application design Create a reporting application on the SAP HANA platform Visualize your reporting data in Microsoft Excel In Detail SAP HANA is SAPs in-memory database technology, and the focal point of their next generation strategy. Using column-based storage to provide highly compressed and rapidly accessed data, a SAP HANA application can be several hundred times faster than the same application on previous generation database technology. SAP HANA Starter is a hands-on book, taking you step-by-step through the creation of your first SAP HANA application. You will discover the building blocks that SAP HANA provides, and use them to create a robust reporting application. More advanced features are shown, allowing you to transform your reporting application into a yearly sales increase simulator. Finally, youll learn how to access your SAP HANA application from Microsoft Excel. Using easy to understand examples and logical progression, you will build your first SAP HANA application a sales...
